**May 23, 2008**

For Immediate Release: **Another Success Story for T & W Stamping Co.**

**The T & W Stamping Company located in the city of Alliance, in Northeastern Ohio, has been able to secure a fourth, five (5) year contract. We will be supplying 11 and 13liter deep drawn stamped, steel, engine oil pans to one of the leading heavy truck and engine manufacturers in the world.**

- We were selected from a group of global competitors; from USA, Europe and Asia.
- We accomplished this by utilizing our current high quality standard requirements and by having **zero defects and on-time shipments**, for this customer for the past two (2) years.
- Our experienced engineering group while partnering with our customer's engineering group were able to secure cost savings in both the model design and tooling design.
- We shopped the global supply chain and secured hardware and components from Europe and Asia.
- We procured tooling from Asia.
- We are able to provide a complete welded assembly, with our in-house, value-added sub assembly department; ready for shipping direct-to-the-assembly lines in the USA, Europe and Japan.

So for your on-time and just-in-time stamping requirements, we are awaiting your business opportunities.

End.

***T & W Stamping is ISO 9001: 2000 Registered.***
